## SEASON TWO OF CLAW MACHINE CHALLENGE IN PRODUCTION!

Claw Machine Challenge is a perfect mix of traditional game show meets modern gaming channel combined with a light hearted promotional interview vehicle for the guests that is all rolled up into some delicious digital content perfect for today's shockingly short attention plugged in audience! Host Buddha, WOLFPAC MC, as seen on ComicBook Men, Pawn Stars and more is joined by a potpourri of very special guests spanning from all corners of the entertainment industry as they test their skills and luck with one of the world's most iconic gaming machine platforms; the Claw Machine, all of which being for charity!

With the first season being a huge success we have started production on the second while taking things up a notch to include an additional six "After Dark" style episodes where instead of each guest playing against the host Buddha, two guests will instead go head to head against each other but this time with a price to pay! See every time a guest fails to pick up a prize on their turn they will have to take a shot of liquor and for each turn they do secure a prize the responsibility of drinking that shot will fall to their opponent! Regardless of the out come the most important detail to the after dark episodes is that no matter who wins, loses, or who boozes every prize will equal a sponsored backed cash donation to animal rescue this seasons being Villalobos Rescue Center from the hit reality television series on Animal Planet "Pit Bulls & Parolees", = a real win/win!
