

With pro wrestling reaching an all-time height of global popularity, the current mainstream product has fallen short alienating many while leaving others wanting. Promising so much, but delivering so little, longtime fans are left with only memories, forced to reminisce about the legends of eras gone by while educating the new fans of a time where attitude, skill and determination built an industry from the ground up! This gap is exactly what Revolution Wrestling Federation has been filling since the launch of our first event "Flashpoint!" Bringing together all of the elements that once made wrestling great! Taking from the established stars of the past, mixing them with the new names making an impact now and future superstars of tomorrow, we are cultivating and developing a roster and a brand unlike any other! Much like steel sharpening steel, using the old and the new, with our hands-on formula, we are sure that Revolution Wrestling Federation will soon be set above so many copycat gimmicks based promotions all doing the same thing as one another!

We here at Revolution Wrestling Federation have been watching the trends of the industry, listening to the fans to get it right! Don't get it twisted, this isn't just one person's vision of what wrestling could be, on the contrary we have brought together a virtual cornucopia of some of the greatest minds in pro wrestling, coupled with some successful veterans within the music industry entertainment to set out to do one thing, and that's to bring to market a fan centered interactive element to every show that they can't get enough of!

In addition, Revolution Wrestling Federation is utilizing the latest in social media technology to further develop our brand on line and to cultivate our audience, bringing to them so many more dimensions to the athletes they like, and the industry they love. This too benefits our talent roster developing a much greater connection between the fan and their favorite wrestler than ever before offering a one of a kind experience at each one of our events!

Riding the success of our last event we already have the wheels turning for our next production adding even more promotional fuel to the RWF fire! For instance, we just entered into a contract with Effect TV which will be targeting our events market with no less than six (6) Revolution Wrestling Federation thirty (30) second commercial spots on national TV two week prior to our event date! Just one more arrow from our quiver to make sure Revolution Wrestling Federation will continue to grow and flourish!

If you have any questions or comments please feel free to reach out to me any time. We are more than interested and open to any new ideas or concepts that can work within our company to help take everything to the next level!

## • EVENT 1: Revolution Wrestling Federation Presents Flashpoint!

March 23rd saw the birth of a Revolution with Flashpoint, as a standing room only audience witnessed the events that will set the standard for pro Wrestling! That revolution, however, did not start without it's fair share of rebels! Revolution Wrestling Federation was live and on line! Never one to follow the rules, Malcolm King instead chose to use the rules to his advantage, feigning an injury to his leg during the battle to crown the RWF internet champion, tossing the man we thought to be victorious, Nui Tofiga, to become the company's inaugural champion. After being crowned the champion by WWE Hall of Famer Ron Simmons, Malcom was informed that he would not be comfortable in that position for long as he must now defend that title against none other than Nui Tofiga! Taking the cheap way out, Malcom had gotten intentionally disqualified to retain the internet championship. Also, Upon announcing the heavyweight title tournament qualifiers, JR Manitoba played out a main event that would leave fans talking! Those I attendance were thrilled to see the Red Scorpion go one on one with HC Loc, however the night wouldn't see a victor to this epic battle as Cyrus Parker led a charge to the ring consisting of Adam Cain, Prince Shongo and Dante Draconis, causing a double disqualification. Lucky for Loc and Scorpion, Mal Havock and TJ Mathis were on hand to come out and chase off the demons that had invaded.
